

Simple Installation & Usage Guide

1. Download the file

First, download the provided ZIP file.

2. Extract the ZIP

Unzip the downloaded file to access its contents.

3. Keep the file name unchanged

Do not rename the main file. It must remain:

the-invoice-generator.html

4. Replace the logo

In the same folder, replace the existing logo image with your own logo.

Make sure the new file has the same name:

logo-theinvoicegen.png

5. Open the HTML file

Right-click on the-invoice-generator.html

Select Open With → Google Chrome

6. Start using the software

The invoice generator will open in your browser, ready to use.
